

source

```
graph TD; source([source]) --> code[Code Block]; code --> sink([sink]);
```

The diagram illustrates a data flow. An oval labeled 'source' at the top left has an arrow pointing to a large rectangular box in the center. This box contains two lines of shell script. From the bottom left of this box, another arrow points to an oval labeled 'sink'.

```
$name = $_GET[ 'name' ] ;
```

```
echo ' <p>Hello ' . $name . ' !</p> ' ;
```

sink
